

Bourne

In newest, stereo-
typical bitch charged
with X-ing him, man-

nish clothes, slicing tongue.
He has lost his Marie, wasted

by the CIA one supposes. But
even ole Mannish softens a bit &

triple-cute round-faced girl gets
her role expanded & gets, too, coy.

Belay such chickflick sop! No way
of murdering Bourne! Send up
to a dozen & it's nothing.

More than that, diminishing returns:
They bumble into each other with
explosive results.

Hope he keeps on going. Why, &
why the appeal to so many males?
After all, just a comic strip

compared to the real evil foisted by
Washington & underlined in many
national capitals. Well, majority

of men counting beans in quiet
desperation. So, require Bourne,
(not to mention Rambo). Besides,

MAYBE MARIE DIDN'T REALLY DIE !
come il cacio sui maccheroni !
